SHOPPING ONLINE

Photo by https://bemarsupial.com.au/

Shopping online is becoming very popular. Why do you think is that?

Have you ever bought anything online? Why or why not?

Have you ever returned something that you bought online?

What products do you prefer to buy online, and which in traditional shops?

What's your favourite online shop?

Have you ever sold anything online?

Can you see any major problems to shopping online?

Do you think it is safe to buy on the Internet? How can you protect your security?

If you had a business, would you go online? What are the benefits?

Do you think in 20 years' time we will do all our shopping online?
