RACISM AND IMMIGRATION

Say whether you agree or disagree with the following points of view , giving reasons.

1. I don't see why my taxes should support people from other countries. I'll never get anything from their countries, will I?
2. We should be proud that so many people would like to live in our country.
3. A lot of refugees are Muslims. Wouldn't it be better if they went to a Muslim country where they would feel more at home?
4. There aren't enough jobs for local people as it is. We can't have people from other countries taking our jobs.
5. Asylum seekers are asylum seekers. They are desperate women, men and children. You never know, we could be in their situation one day.
